

Typical Latvians

I have chosen to write about a typical Latvian teenager. I am one of them and I'm happy to live in Latvia.

Latvians in my age have many things to do here. We are very active and joyful.

Popular activities in Latvia are singing in a choir, dancing folkdances and other dances, doing sports like basketball, football and many other different sports.

Many teenagers who have grown up in Latvia want to reach something important, like our new basketball player Kristaps Porziņģis. He has made Latvia famous in sports news even in America and other countries all over the world.

Dina Pelēķe

Teenagers' lifestyle

In Latvia there are so many different teenagers. They spend free time with other teenagers. In free time a lot of teenagers go out with friends, spend time with computer. Many teens like music, they belong to different groups. I think teenagers in Latvia are cheeky, emotional and gloomy. A lot of teens are vain, it is really bad. Students have different behavior. Most of students like fun, partying, but they can't spend time the way they need to do that.

Eva Vilciņa

Latvian teenagers' Lifestyle

There are a lot of teenagers in Latvia and every single of them are different. Mostly teens are in groups or clubs.

Teenagers go to school and some of them find some activities to do there. For example cheerleading. They form a certain group or join some club. They are friends with people with the same interests as they have. Mostly they hangout together.

Depending on which group they are, they do activities that interest them. For example , book worms go to library and read books.

I think that in Latvia teens are independent and they grow up faster. Because of Technologies they are smarter too. Some people that are in "cool" clubs can be mean and vain.

Līva Polmane

Typical Latvians

I think that Latvians are very talented. Many Latvian children are active they sing in choirs, dance folkdances and do other useful things. Some students make different videos and have published them in social site-youtube. Some people are good at sports, they play football, basketball,volleyball and other sport games.

Evelīna Skalberga

Latvians are quite diverse when it comes to lifestyle. A lot of teenagers and even pensioners are living the technology lifestyle. Women use technology for communication and checking social media while men play games and watch interesting things. The other half doesn't use technology as much and they go outside more.

Latvians aren't very aggressive. In schools you almost never see any bullying. Most common bullying is just small verbal abuse. In Latvian families it's stereotypical for grandmothers to be more caring than even mothers sometimes. Latvians mostly eat potatoes and meat. They mostly cook food themselves instead of going to restaurants unlike other countries. Most Latvian teenagers are quite athletic because they do all kinds of sports. There are less teenagers sitting at home than in other countries.

Markuss Baltgalvis

Typical Latvians

A typical Latvian is gloomy and dissatisfied, they are like that at any age, it can be seen more at the age of teenagers, but not every teenager is like that. Some teenagers are smart and with lots of hobbies. Some teenagers are disobedient and don't want to go to school.

Teenager's daily routine includes school, home, time with family and friends. School takes a lot of free time, but it's successful.

In Latvia there are many talented people, like singers, actors, sportists, dancers and others. The Latvian language is very rich and beautiful. Latvia is a safe place to live. There are no earthquakes, volcanos and wether catastrophs. There are popular Latvian websites. I am prouds of Latvia.

Linda

Latvian lifestyle.

I think that Latvians have a boring lifestyle. The only thing that keeps Latvian lifestyle a little bit interesting is sports. For youngsters and teenagers the most popular sports are football and volleyball.

More and more young people are joining Latvian folk dance groups which I think is nice. I think that it is very good to know Latvian culture and make a part in it.

Most of men and women at the age of 35-45 are interested just in their work and don't have time to do interesting things, like travelling or just having fun.

Pensioners usually are staying at home, listening to the radio and knitting.

Katrīna Artemjeva.

Young people are different. Most of them inquisitive and joyful. Many young people have good achievements in sports. They represent a major worldwide sporting events. Young people are also musically talented. School Youth Song and Dance Celebration thousands of participants sing and dance for enjoyment themselves, listeners and viewers. Most talented young people successfully participate in various international competitions. Young people who are interested in military things are involved in the Young Guard organization. Latvian young people have many opportunities to learn and improve themselves.

Ronalds Bēmanis.

Describe Latvian lifestyle

Most of teenagers in Latvia spend a lot of time outside in comparison to American teenagers who spend most time in fast food restaurants. More and more men in Latvia go to fitness centers. Latvian men don't like that women spend a lot of time in shopping centres. Latvians really like to sing in choir, Latvians are singers country. Latvia is safer than most of other countries. Latvians love their country because there is fresh air. In Latvia women work more than in other countries. In other countries pensioners live better than Latvian pensioners. Latvians aren't aggressive at all.
