This project is very important to my school because, in addition to being in line with Linguistic and Scientific Linguistics programs, they were in line with pupils' requests.

The project is tremendously important to my school and European development and understanding. It opened the eyes of both students and teachers to the most important issues we have to deal with all around Europe. It created a unique opportunity to research on the mentioned issues and expand our knowledge. Moreover it motivated us teachers to self development and cooperation with teachers from other European countries. The Project created the platform for sharing our experiences and learning together and from one another. I feel honoured to take part in it. Thank you once again.
