CLIL Module 1

We collaborated in groups about some local games of our region. We also created digital products to show our origins, as the other countries did. Our final products were interesting, funny and colorful, everybody liked them.

CLIL Module 2

We studied ancient sports of Greece or of the Roman Empire with our history teacher. We had time to choose an old sport and to work on it, creating a final article as in a newspaper.

CLIL Module 3

Our school hosted some athletes and trainers and they explained us the importance and the benefits of individual sports. We played some sports and we had a lot of fun.

CLIL Module 4

We supported each other doing team sports; for example we played a game called 'the dragon'. We understood how it is important to count on teammates and how team sports change our character and personality.

CLIL Module 5

We made slogans against doping, working in groups. We also had a conference in our school with doctors and trainers to show us the effects of using drugs. It was really useful for us.

CLIL Module 6

The most funny thing was that we cooked together to film our traditional recipes. We also worked on food pyramids and healthy diets.

CLIL Module 7

We learned new ways of learning instead of traditional ones. We realized how lucky we are to experiment these kind of lessons in our school.
