For us these activities were very advantageous. Because in the end of this activity, we have more information about traditional sports.

### **CLIL Module 2**

An individual sport makes us feel more relieved than how we are now. Doing sport activities helped us to focus more on our lessons

### **CLIL Module 3**

Team sports can teach us how strong we are when all of us are together. And in the end of this activity we have more information about team sports.

### **CLIL Module 4**

Among all sports in Turkey, the most popular one is football. Unfortunately we are not good enough at football.

### **CLIL Module 5**

Doping isn't fair. With doping you cheat somebody's rights. Also you can't win the competition and we think in the end everyone will know if you use doping. We were surprised when we saw that many people used drugs and commented on the subject.

### **CLIL Module 6**

With the module 6 we prepared recipes. Our traditional food is delicious. We talked about these foods. We think this was the most enjoyable module. So we worked hard during this module.

### **CLIL Module 7**

We have learned so much information about traditional and non-traditional learning. Our teachers helped us understand the subject. And we helped our teammates finish the reports and do the reading activities.
