Write about what activities you did during the project:

Evaluate your skills while working for the CLIL Modules as regards:

- 1) Working with your classmates
- 2) Independence in carrying out tasks
- 3) Working with technology
- 4) Time Management
- 5) Your contribution to the Final products

CLIL Module 1

We made posters about sports history and traditional sports in our country, it was interesting to learn more about it and share this information about our culture with people from other countries. We learned working in teams and share our opinions with each other.

We had no problems cooperating with our classmates during the project activities.

CLIL Module 2

It was very educational to learn about sports history in our country and also others. We think it is important to understand how some of sports started and how they are now.

CLIL Module 3

During the project we had to make photo collages, photo albums and e-magazines. We had no difficulty finishing all tasks.

CLIL Module 4

A wonderful opportunity to get to know students from other countries. I really liked working in the programs where we made animations about active lifestyle. Good practice tweeting inspirational tweets. Great time watching interviews with different athletes from different countries. I really liked watching everyone's presentations. I learned how to better work in groups and do something together with other students from other countries. Thank you so much Erasmus+, I had an amazing time in Istanbul. My group managed to finish all tasks in time.

CLIL Module 5

Entertaining time watching and learning active dancing. Watching musical performances. Great time playing bowls and climbing the wall. I really loved doing step and playing volleyball. Loved making the kites and letting them go with the balloons. Had great time with my team running the race in Crema city. I improved my English and learned a lot of new things.

I contributed in making the photo collage and helped my group to make the e-magazine and photo album. I also took part in presenting our work to other groups.

Thanks Erasmus!

CLIL Module 6

CLIL Module 7

Worked with different sites to make posters about non-traditional learning which was fun and also very useful. Working in this module we learned to work independently and later share our own work with others. Also this gave us opportunity to show our creative side. We learned to work effectively and fast enough to make everything on time.

Evaluate your skills while working for the Etwinning activities as regards:

- Working with your classmates
- Independence in carrying out tasks
- Working with technology
- Time Management
- Your contribution to the products

Together with classmates we visited a European Union Center in Jelgava (Latvia) to get more information about EU, participate in a quiz and later share the information with the project students. The article on EU centers in Latvia was written.

We acquainted other European countries with culture of Latvia (made presentations on culture-Music festivals, religions and churches in our native town).

We made a video on non- traditional learning in Latvia and the situation with refugees.

Evaluate your skills while working during the Mobility weeks you took part in, as regards:

- Working with other students during the mobility week
- Independence in carrying out tasks
- Time Management
- Working with technology
- Your contribution to the Final products
- Your participation in sport activities
- Your participation to the cultural programme

Mobility to Bari, South Italy – February 2016 (Inese Tarvida, Sandija Jakobsons)

Working with other students and learn new things from them was really exciting and one of our best experiences ever. This one week in Italy gave us so much emotions, knowledge and experience.

We enjoyed working with students from other countries ,it was interesting to meet new people .We also improved our skills using technology and making posters online.Sport activities were a real fun,had a good laugh with all participants.It was great experience for us to travel to a different country ,meeting new people,communicating with them,improving English language skills and learning to adapt in different environment.

We didn't have any big difficulties ,everything was good because we worked and lived with very nice and friendly people.

Sometimes it was difficult to understand what is asked from us and what kind of work we have to do. We were happy that people around us were positive and kind, we saw amazing places and ate delicious new foods.

Meeting amazing people, visiting beautiful and new places improved our English.

We learnt more about sport activities in other countries, found out more about traditional sports and healthy diet.

Learnt more about Italy and Italian mentality, lived in lovely families, ate a lot of delicious food.

Our improved communication and language skills can help us in our career.

Mobility to Istanbul -Turkey – May 2016 (Elizabete Katrīna Laudina,Liāna Judina)

We didn't really have any problems communicating with other students, we all were moderately good at English.

Sometimes it was hard to understand the rules for the tasks in the workshops, but we just asked the teachers and then we completed the tasks.

We had wonderful time with students from other countries, new friends for life for sure!

We improved our English and learned a lot about healthy lifestyle.

In Turkey we had an amazing time with the wonderful Turkish students. They showed us around Istanbul and we became great friends.

We are more open-minded and this experience will stand with us for the rest of our life.

Mobility to Crema , North Italy – November 2016 (Santa Koroļkova, Baiba Saulīte)

We had no problems cooperating with other students. We accomplished all the tasks given and did them in time. We knew how to do the tasks on the computer using the given websites and computer programmes. We contributed in all tasks and sport activities. I got to know more about Crema and Milan on the tours in those cities.

We had no problems integrating in a foreign country.

We had some problems working with the computer but the teacher sorted it all out.

It was nice to know that everything was planned out and students didn't have to worry about anything.

It was interesting to challenge ourselves and do tasks in a foreign language.

We learned more about the culture in Italy, saw many beautiful places in Crema and Milan. We met a lot of nice people from other countries and made friends.

We'll try to take part in more projects similar to this one because now we know that it is possible to visit a foreign country, improve language skills and meet a lot of nice people.
